Great Fishing

Blackduck Lake is considered one of northern Minnesota's premiere walleye fishing lakes. It is stocked every 2 or 3 years with around 1 million walleyes. Also, it is connected to Red Lake by the Blackduck River which is on our resort, and this helps with the walleye spawning.

You can catch bass out of the outlet of the river from the bridge in the heat of the summer. We also have a 240 foot dock for catching jumbo perch and sunfish..
